The Molecular Basis of Bacterial Stress Responses

October 25 - November 5, 2004
Rosario, Argentina

This course is conceived for regional and international doctoral students and postdoctoral fellows. It will focus on state-of-the-art strategies and techniques employed to study eubacterial mechanisms of stress responses and current problems in prokaryotic gene regulation.

Professors:

- Nestor Carrillo, Argentina
- Nestor Cortez, Argentina
- Diego de Mendoza, Argentina
- Gloria del Solar, Spain
- Jorge Escalante Semerena, USA
- Manuel Espinosa, Spain
- Eleonora García Véscovi, Argentina
- Frederico Gueiros Filho, Brazil
- Thomas O’Halloran, USA
- Lucía Rothman-Denes, USA
- Thomas Silhavy, USA
- Fernando Soncini, Argentina
- Alejandro Viale, Argentina
- Alejandro Vila, Argentina

Further information and application forms can be obtained at http://www.hhmi.org/grants/awards/inst/intl_courses.html from March 1 to June 1, 2004.
